Re: Immunizations of Students enrolling or currently enrolled in the Catholic Schools of
the Diocese of Salt Lake City

This memo is to remind you of the change that was made last year to our school immunization policy. It is the policy of the diocese to only enroll students that have been immunized into our school system. The policy will however, allow a student to be in our schools, if they have an official Utah Health Department medical waiver on file with the school office. This form is usually available at Doctors' offices, but can be obtained from the Utah Department of Health.

No personal or religious exemptions are allowed.

Please notify any parent or guardian of non-immunized children presently enrolled in your school of this policy change. Parents or Guardians of students presently enrolled in our schools, who wish to continue to be enrolled in school, will have fifteen months from receipt of this notification to complete the vaccination cycle of their child/children. Students that have not completed the vaccination cycle within fifteen months will not be allowed to attend school.

I thank you in advance for notifying your parents/guardian of this policy change.
